MEMORANDUM FOR THE RECORD

SUBJECT: PAR 205 - 4X Chip Enlarger

1. Recommendation is made that [ ] be advised that no further current effort be expended on PAR 205 and that it be held in abeyance for at least a six month period.

2. This recommendation is made to enable a more logical determination to be made as to type of materials, methods of handling and a more thorough insight into the chip enlargement requirements. It is anticipated that [ ] will at that time be asked to submit a revised proposal more in line with the objectives as then determined.
